

Microsoft license assessment.

Manage your licenses with confidence.
Avoid costly surprises.

The Challenges You're Facing

Microsoft licensing complexity often leads to 30%+ overspending and licensing compliance financial risks.

- No full visibility into licenses you pay for vs use
- Licensing rules are complex, tricky and are constantly changing
- Audit & financial risks from mismatches between deployed and purchased licenses
- Not enough time, people resources or know-how

Our Approach: Clear, Actionable Guidance in 4 Weeks

Here's what we do - and what you get
with our Microsoft licensing assessment

Identify overspend and compliance risk

Flag potential optimization and hidden risk areas

Set up the necessary tools and connections to see the full picture

Help your team make corrective actions & smart decisions fast

Is This Service Right for You?

Perfect if you need to:

- > Be confident you're audit-ready
- > Figure out exactly what licenses you need & use
- > Understand tricky licensing rules to make smart decisions
- > To have a solid base to improve ROI and reduce total cost of ownership

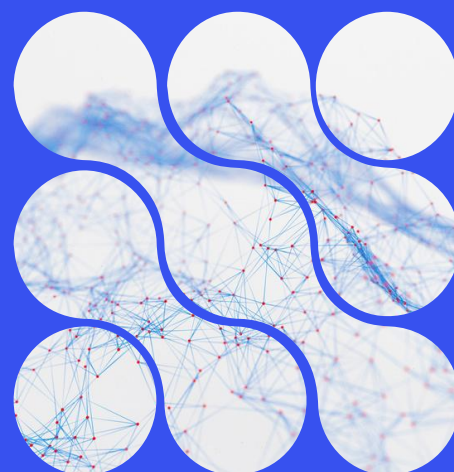

What You Get

Real outcomes that support success, not just theory.

- Save money by cutting unneeded licenses and avoiding fines
- A single, accurate compliance picture - deployed/used versus purchased entitlements reconciled, with an audit-ready evidence pack
- Data for actionable decisions, including renewal and true-up decisions - and a foundation for further optimization.

Our Proven Assessment Flow

- 1 Kickoff Meeting:
Align the action plan with your stakeholders
- 2 Tool Setup and Data Gathering:
Collect license deployment, usage & agreement data
- 3 Licensing Analysis:
Underused/overused licenses, compliance & financial risk
- 4 Report:
Detailed findings & actionable recommendations
- 5 Result:
Make smart, data-driven decisions to minimize compliance risks and optimize your Microsoft licensing
